

Summer is a time for reflection of the previous school year and a time for adjustment and goal-setting for the new year. Teachers are always looking to implement at least one new strategy or approach to boost achievement.

Do you want to

- Improve questioning and feedback?
- Access brain-based strategies to reach all students?
- Apply the most effective research on instruction?
- Eliminate achievement gaps?

**If you answered yes to any of the above,
KASC Summer Academies are for you!**

Session Descriptions:

Teacher's Toolbox – A 3-hour exploration of the greatest hits of the research-based instructional strategies that teachers request most: student engagement, differentiated instruction, achievement gap closure, growth mindset development, and brain-based discipline techniques.

Higher-Level Questioning with Quality Feedback — Learn how to raise the level of questioning in the classroom lead effective discussions to improve student achievement, and provide quality feedback that engages learners.

Targeting the Disability Achievement Gap — This interactive workshop provides instructional strategies that have been proven effective for students with disabilities. In this 3-hour session, participants explore common factors that have created opportunity gaps in schools and gain an understanding of how to address those.

Proven Ways to Increase Achievement — This 3-hour session introduces high-effect size factors that promote student achievement: growth mindset, relationships, feedback, and student engagement.

Paraeducator's Toolbox — Explore research-based strategies most requested for paraeducator training. Includes instructional strategies for teaching small groups, coaching students through challenges, giving quality feedback, and using differentiation strategies to support learning.

Paraeducators as Partners in Increasing Achievement — Paraeducators will explore the factors that strongly impact student achievement: growth mindset, relationships, feedback, and student engagement.

Pick 3 Academy — Choose three sessions from a variety of topics designed to provide original ideas for teaching and learning. Participants will leave with information, strategies, and tools to make a dramatic improvement with students.
